NAVIGATING THE WORLD OF OPEN PUBLISHING: HOW TO IDENTIFY A TRUSTWORTHY JOURNAL

Presentation Overview:

Nowadays, when open publishing is increasingly widespread, it is essential to distinguish between the characteristics of trustworthy and predatory journals. This workshop aims to provide the key information and skills needed to safely navigate the open publishing space for researchers, academics and students. Participants will learn to recognise trustworthy journals and understand the characteristics of predatory publishers. These skills will help participants make informed decisions about the choice of publishing platform and enhance the integrity of academic publishing. The workshop is part of the activities of the [Stop Predatory Practices](#) initiative.

We look forward to your participation!

WHEN?

Thursday, 12th September 2024 at 11.15 a.m. (Ph.D. Day)

WHERE?

IAPG Lecture Room

WHO?

All interested researchers and students of IAPG CAS
