Institute of Animal Physiology and Genetics of the Czech Academy of Sciences in Liběchov, Czech Republic announces a call for a:

Position for PhD students in Developmental Biology

Laboratory of Biochemistry and Molecular Biology of Germ Cells is seeking a colleague to join our research team. We are looking for a highly motivated individual interested in studying the regulation of oocyte and embryo development. The research focuses on RNA metabolism and its role in the control of gene expression.

This PhD student position is jointly supervised within The Czech Academy of Sciences and Charles University in Prague. The position is subject to successful completion of two interview rounds conducted by the institute and the university. The appointment is for four years and is renewed annually based on satisfactory scientific progress.
